Title: Greening from Home

Description: Let us green together! Please join us to see what the members of the Green Team Leads Council are doing to green their homes and communities. With our current working and living conditions focusing on safety and emphasizing social distancing, we must be creative with our efforts to protect the environment. The Green Team members will share their personal greening experiences, such as using food scraps more efficiently, creating home-made face masks, organizing virtual get-togethers, starting composting at home, increasing recycling and many more. We hope these experiences will give each of you some ideas of your own for going green in your home!

Date: October 29, 2020 Time: 11:00 am – 12:30 pm
